Materialinfo:

We offer our graphicdesign silk/fleece ready to laminate in your boards. The material is a textillike material, the colours are water-, solvent-, and UV-resistant and gets burned in via heat transfer.

Weight is about 0,40 -160 gr/m² (depends on which kind of board ou like to transfer). The silks are teint transparent to opaque.

We recommend to send you smal samples to test out the material in advance.

"freak on" is a registered trade mark
